

# FD Dispatch Easy To Learn And Easy To Use

## Computer Aided Dispatch

Created with the input of more than 50 dispatchers over several years, this specialized system enables dispatchers to quickly enter vital information and view all apparatus status and locations.

Evolved from years of manual dispatch procedures, FD DISPATCH's system includes:

- Viewable Pre-fire Plans including specific address information – hazards, contact, pre-existing conditions, site photographs
- Standardized street book page referrals
- Past Incident Tracking
- Apparatus Availability Tracking
- Apparatus dispatch based on department specific running orders for incident type and location
- Automatically entered data for NFIRS 5.0 Incident reporting in FD Manager
- Dispatch and Track Mutual Aid Apparatus

### FD DISPATCH SPECIFICATIONS:

#### NFIRS 5.0 COMPLIANT

**SIMPLE AND INFORMATIVE PREPLAN INFORMATION** – easily interacts between NFIRS reports, Fire Prevention, and Dispatchers

**USER-FRIENDLY CAD SYSTEM** – allows dispatchers to quickly enter vital information to create and track a new incident

**EASY -TO-READ CAD APPARATUS STATUS SCREEN** – allows quick and simple view of all apparatus status and locations

**SIMPLE AND EFFICIENT ACCOUNTABILITY RECORD KEEPING SYSTEM** – includes Sick/Vacation time and Overtime for regular staffed departments

#### OPTION:

**FD MAP** – Provides an ESRI-based GIS mapping capability to graphically display incident locations

## BY FIREFIGHTERS FOR FIREFIGHTERS

This software was initially developed by active firefighters who sought better operational management for fire departments and then was perfected by PURVIS. It was designed based on the feedback from veteran dispatchers over the past several years. The system's user-friendly interfaces and intuitive functionality have been developed from user-driven research.

*EXPORT CONTROLS: Products purchased or received under a Sale are subject to export control laws, restrictions, regulations, and orders of the United States.*
